NOTES AND LEGEND

—•— Denotes 1/2" steel reinforcing rods set on this survey.

The meridian of this survey is referred to the South line of Lot 9 Block 13, the bearing of which is assumed to be N75°30'00"W.

The cited courses shown hereon are from the original field notes of Volcano Townsite.

It is the recommendation of this surveyor that Boundary Line Agreements be entered into with all adjacent owners of all three parcels shown hereon as the field notes of the original town lots are mathematically incorrect.
