A coffee machine I bought online

Last week, I bought a coffee machine online. I have a positive opinion about it for many reasons. I bought it as a present for my parents. I saw it on a website on the internet. Its price was not expensive. I asked the company to deliver it. The delivery didn't take a long time. They deliver it after one day. When my parents saw it, they were happy with it. It looked great and was not broken. When they began to use it, it was easy to use. It made delicious coffee. Finally, I advise all of you to buy this machine from the same company because I think they are honest people and their products are good.

My story

I have enjoyed windsurfing for many years. I usually go with my father. One day, I decided to go alone. I didn't tell my father about that. The weather was good for windsurfing. I enjoyed my time very much. In the afternoon, the wind suddenly became very strong. The wind took me far from the beach. I was very scared. I was lucky when some people on a boat saw me. They came to help me. They took me back to the beach. My dad was angry with my. I apologized and learnt that I should go with an older person.
