

# Pattern Weights Organizer

- 2¼-inch wood disk to serve as the base
- Cloth rag
- Wood glue
- Drill with a ¼-inch bit
- Sandpaper
- 1 4-inch length of ¼-inch dowel
- Bead with a ¼-inch hole
- Acrylic paint
- 2 paintbrushes
- Polyurethane sealer
- 2¼-inch circle of adhesive-backed felt

- Step 1:** Find the center of the wood disk and drill a ¼-inch hole. Wipe clean with cloth rag.
- Step 2:** Put a little wood glue in the hole you drilled and insert the wood dowel.
- Step 3:** Lightly sand until smooth and wipe clean with cloth rag.
- Step 4:** Paint the base and dowel.
- Step 5:** Seal with a coat of polyurethane.
- Step 6:** When dry, attach the circle of adhesive-backed felt to the bottom of the base.
- Step 7:** Stack your pattern weights and top with your bead (do not glue the bead as you want to be able to remove it to use your pattern weights).

Please do not use my tutorial to make items for commercial sale.
